EDUCATION

G. H. Raison College of Engineering and Management

B.Tech - Information Technology - CGPA - 7.51

2023 - 2027

Pune, Maharashtra

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Computer Network
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Web Development

PROJECTS

Food Delivery Application [🔗](#) | [React.js](#), [Spring Boot](#), [MySQL](#), [REST APIs](#), [Material UI](#), [Git](#)

- Developing a full-stack Food Delivery Application using React and Spring Boot with RESTful API integration.
- Implemented core features including restaurant listing, cart management, order processing, and billing system.
- Designed secure authentication and modular architecture for efficient frontend-backend communication.

Expense Tracker [🔗](#) | [Java](#), [Spring Boot](#)

- Developed a RESTful backend for an expense tracking system to manage expenses, categories, and transaction history.
- Designed layered architecture using controllers, services, repositories, and entities following Spring Boot best practices.
- Implemented secure authentication and authorization for user data protection.

HACKATHON EXPERIENCE

WeMakeDevs Hackathon

Nov 2025

Participant

- Built an Agentic AI workflow with Sales, Technical, and Pricing agents to analyze RFP documents, recommend OEM SKUs, and compute total project cost.
- Developed backend services using FastAPI and Groq LLMs, orchestrated workflows using Kestra.
- Deployed an end-to-end AI system with a Next.js frontend on Vercel and implemented PR-based improvements using CodeRabbit.

WeMakeDevs Hackathon

Dec 2025

Participant

- Built a Motia-style unified backend using step-based workflows and shared state for end-to-end RFP-to-proposal automation.
- Designed APIs and integrated AI logic to enable seamless workflow execution with full observability.
- Implemented scalable architecture for handling multi-step automation processes efficiently.

TECHNICAL SKILLS

Languages: Java, C, C++, JavaScript, SQL

Developer Tools: VS Code, IntelliJ IDEA, Git, GitHub

Technologies/Frameworks: React.js, Next.js, Spring Boot, FastAPI, Docker

AI/ML Tools: LLMs (Groq), AI Agents, Agentic Workflows, Kestra (Workflow Orchestration)

CERTIFICATIONS

- Oracle Certified Generative AI Professional
- Java - Spoken Tutorial Project, IIT Bombay
